

AT A GLANCE

REDAVIA offers solar power for businesses – with a regional focus on West and East Africa. The REDAVIA system is based on a pre-configured model, including high-performance solar modules and high-quality electrical components. It is easy to ship, set up, scale and redeploy. Businesses benefit from a cost-effective, reliable and clean energy solution with minimal upfront investment and no technical skills required, while supporting the reduction of carbon emissions and increasing the impact on a sustainable society.

VISION

Our vision is to be one of the global market leaders of cost-effective, reliable solar power solutions for businesses, reducing emissions by over 100k tonnes and providing clean electricity access to 650,000 people by the end of 2023.

MISSION

Our mission is to provide cost-effective, reliable and clean solar energy, enabling businesses to grow sustainably.

KEY FACTS

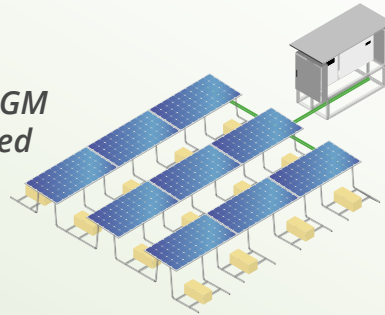

17 solar farms
in operation

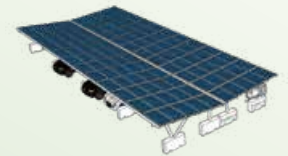

3,562 tonnes
CO₂ reduction per year
achieved so far

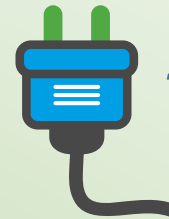

46
FTS-80GM
deployed

2 FTS-40CP
deployed

22,737
people
impacted

4,281 kWp
installed solar
capacity

SUMMARY

Founded:
2010

CEO & Founder:
Erwin Spolders

Support Partners:
KawiSafi Ventures, Factor(E) Ventures,
Nordic Development Fund, responsAbility,
ElectriFI, DEG, Lendahand, Shell Foundation

Target Sectors:
Agrofoods Processing, Manufacturing, Mining &
Minerals, Services, Hospitality & Real Estate

Key Customers:
Regional Maritime University, SGS, Red Sea
Housing Services, Regus, Barry Callebaut in
Ghana; Shanta Gold New Luika Gold Mine in
Tanzania; Menengai Farmers Ltd in Kenya

Countries of operation and local offices:
Ghana, Tanzania, Kenya

Headquarters:
Munich, Germany

Management Expertise:
>100 years of combined experience in solar,
financing and operations
